Andrea Salvador

Biography

Andrea Salvador was born in Udine in 1964; he lives and works in San Giorgio di Nogaro.

The mosaics of Andrea Salvador are free from any didactic twisting, his creative approach with the material is not that of a craftsman but rather that of an attentive scholar, of an impassioned researcher.

Every detail is treated as a distinctive and fundamental element, in the service of a creation designed to be a perfect mixture between its own language and the client's wishes.

Before opening his own craft studio he worked together with a number of Friulian mosaicists, as well as at the Poli firm in Verona, specialized in sacred art and producing stained-glass windows and mosaics.

He has participated in a number of exhibitions and on the occasion of the Jubilee exhibited, in Aquileia, a series of icons in enamel, gold and copper. The "Salvador Mosaici" craft workshop produces works for floors and walls, sacred art, portraits, historical and pictorial reproductions.
